Public Order

This project has received funding from the European Union's Internal Security Fund – Police Programme

Key Information

Public Order

This TIG was launched in June 2021 to facilitate the needs of public order practitioners that participated in the workshop organised as part of the i-LEAD project, implemented under the ENLETS umbrella. The group expressed their willingness to collaborate and develop a pan-European community to jointly address the challenges and needs of technology, processes, tactics and training in the field of public order, hence the ENLETS Public Order Group.

TIG Chair

Jakub
Gorczyński

Group Members

27

TIG Support

Natalia
Jarmużek-Troczyńska

Countries

13

Priorities 2021/2022

- **Finalise the state of play report** on Public Order Systems in Europe for use by PO practitioners.
- **Set out future directions and actions** based on the collected gaps and needs in tactics, equipment and training.
- **Organise live international exercises** with PO practitioners based on case scenarios (using real equipment, tactics, procedures).

Benefits of Joining

Be part of a firm
European network

Exchange information and best
practices with fellow practitioners

Express your views and opinions
on professional needs and gaps

Value of working in a group rather
than as an individual organisation

Access to research knowledge
and technological solutions

Close relations with
the **European Commission**

Receive **up-to-date news** on the
TIG's activities via regular newsletters

Maintain informal contact with the group
through the ENLETS Messenger Service

Meet colleagues from different countries
during online and face-to-face meetings

Possibility to be linked with other
European Networks and projects
